We reiterate our Buy rating following the conference call held yesterday. Despite some headwinds for Worldline's revenues, management is confident it can double lfl sales growth in 2016 and 2017 thanks to market share gains in Managed Services, the gradual turnaround in Consulting & Systems Integration and still strong demand in Big Data & Cyber-security. While the integration of Bull was a success, cost and revenue synergies on Xerox ITO and Unify have been reiterated.

ANALYSIS

- Aim to at least double lfl revenue growth rate in 2016 and 2017.** This means that Atos intends to generate at least 0.8% lfl revenue growth (excl. acquisitions and disposals) in 2016 and at least 1.6% lfl revenue growth in 2017. This will be driven by market share gains in Managed Services thanks to strong cloud volumes and significant market share gains thanks to service automation, operating enhancement in Consulting & Systems Integration, while such an improvement was just at its beginning in H2 2015, continuous strength in Big data & Cyber Security, and Worldline – which is expected to grow by 3% lfl in 2016 but is on a trend around +8% lfl excluding the headwinds from the termination of the VOSA and Radar contracts.
- FY16 operating margin and free cash flow guidance: how to get there?** For 2015? Atos posted operating margin of 8.3% after share-based compensation, which means 8.6% before share-based compensation. on that basis, 9-9.5% for 2016 will be reached as followed: -0.3ppt on pensions (est. EUR35-40m vs. EUR74m in 2015), +0.25ppt on Managed Services (more automation), +0.35ppt in Consulting & Systems Integration (improving workforce management and utilisation rates), +0.25ppt on the Bull cost synergies program, +0.1ppt on others (Worldline, corporate, etc). Company guidance excludes Equens, which is set to dilute the operating margin by -0.1ppt in our view, and the acquisition of Cataps (Komerční banka). On free cash flow, from EUR450m for 2015 before share-based compensation or EUR393m after share-based compensation, the bridge for reaching EUR550m for 2016 is as follows: +EUR70m on the operating margin increase on 2015 scope, +EUR35m on pensions, -EUR50m on WCR, +EUR90m on restructuring and reorganisation, -EUR15m on the cost of financial debt, and +EUR27m on scope effects and other changes. The tax rate expected for 2016 and at least the next 10 years is around 20%.
- Confidence on cost synergies with Unify.** Cost synergies with Bull should reach EUR120m by end 2016 (vs. EUR91m end 2015 and EUR8m end 2014), and both revenue and cost synergies with Xerox ITO (USD100m and USD35m, respectively) have been confirmed. Management is very confident on the EUR130m in cost synergies expected from the integration of Unify (on the est. EUR103m restructuring plan launched in February 2016): 1). The team working on it is the same as for Bull, using the same methodologies and processes with proven results, 2). Several sources of improvement have been identified on procurement and the supply chain.
- Updates on M&A and risk.** 1). Atos will remain strict on its acquisition policy (priorities: Worldline, the US, and technologies), will not compete against private equity funds and will not make compromises on value creation - as shown by the decision not to bid for Dell's Perot business; 2). Atos' revenue exposure to 'risky' areas such as Oil & Gas, the banking sector and emerging countries is respectively 3%, 17% (including Worldline) and 6%.

VALUATION

- Atos' shares are trading at est. 5.5x 2016 and 3.8x 2017 EV/EBIT multiples.
- Net cash position on 31st December 2015 was EUR593.1m (net gearing: -15%).

Bryan Garnier stock rating system

For the purposes of this Report, the Bryan Garnier stock rating system is defined as follows:

Stock rating

BUY	Positive opinion for a stock where we expect a favourable performance in absolute terms over a period of 6 months from the publication of a recommendation. This opinion is based not only on the FV (the potential upside based on valuation), but also takes into account a number of elements that could include a SWOT analysis, momentum, technical aspects or the sector backdrop. Every subsequent published update on the stock will feature an introduction outlining the key reasons behind the opinion.
NEUTRAL	Opinion recommending not to trade in a stock short-term, neither as a BUYER or a SELLER, due to a specific set of factors. This view is intended to be temporary. It may reflect different situations, but in particular those where a fair value shows no significant potential or where an upcoming binary event constitutes a high-risk that is difficult to quantify. Every subsequent published update on the stock will feature an introduction outlining the key reasons behind the opinion.
SELL	Negative opinion for a stock where we expect an unfavourable performance in absolute terms over a period of 6 months from the publication of a recommendation. This opinion is based not only on the FV (the potential downside based on valuation), but also takes into account a number of elements that could include a SWOT analysis, momentum, technical aspects or the sector backdrop. Every subsequent published update on the stock will feature an introduction outlining the key reasons behind the opinion.
