### ANALYSIS

- **As expected, Apple presented a new iPhone and a new iPad yesterday.** The new iPhone, dubbed the iPhone SE, has a form factor very close to the iPhone 5S, with a 4" screen. However, the components are similar to an iPhone 6S with an Apple A9 application processor, a M9 motion processor and LTE (up to 150Mbps) wireless capabilities. While no details were given by Apple, the graphic processor should also be the same as the iPhone 6S. In addition, Apple also unveiled a new 9.7" iPad with similar components and capabilities than the iPad Pro 12" presented in September 2015 (Apple A9X and M9 coprocessor). This iPad will be available from USD599.
- **While Apple's new products were in line with expectations, we see the low pricing of the new iPhone as positive news.** Indeed, the iPhone SE will be available from USD399, i.e. lower than the iPhone 5S which was the cheapest iPhone in Apple's portfolio so far and lower than rumoured expectations of USD450/500. We believe this could help to reinvigorate Apple's smartphone sales. As a reminder, we currently expect 2016 shipments (different to Apple's FY16) to reach 213m units, down 8% compared to 2015.
- **No impact on the ASP.** Since this new iPhone uses an Apple A9 processor, we believe that the PMIC will be the same as the one used in the iPhone 6S. As a result, there is no reason in our view to expect a negative (or positive) impact on the average selling price from a Dialog perspective.

### VALUATION

- Dialog's shares trade at a low 2016e P/E ratio of 10.9x to be compared to peers' 2016e P/E ratio of 19.8x.

# Bryan Garnier stock rating system

For the purposes of this Report, the Bryan Garnier stock rating system is defined as follows:

## Stock rating

BUY	Positive opinion for a stock where we expect a favourable performance in absolute terms over a period of 6 months from the publication of a recommendation. This opinion is based not only on the FV (the potential upside based on valuation), but also takes into account a number of elements that could include a SWOT analysis, momentum, technical aspects or the sector backdrop. Every subsequent published update on the stock will feature an introduction outlining the key reasons behind the opinion.
NEUTRAL	Opinion recommending not to trade in a stock short-term, neither as a BUYER or a SELLER, due to a specific set of factors. This view is intended to be temporary. It may reflect different situations, but in particular those where a fair value shows no significant potential or where an upcoming binary event constitutes a high-risk that is difficult to quantify. Every subsequent published update on the stock will feature an introduction outlining the key reasons behind the opinion.
SELL	Negative opinion for a stock where we expect an unfavourable performance in absolute terms over a period of 6 months from the publication of a recommendation. This opinion is based not only on the FV (the potential downside based on valuation), but also takes into account a number of elements that could include a SWOT analysis, momentum, technical aspects or the sector backdrop. Every subsequent published update on the stock will feature an introduction outlining the key reasons behind the opinion.
