Q1 margin decrease (-290bp) justifies cautious FY16 outlook

Fair Value EUR119 (-13%)

**NEUTRAL** 

Q1 sales increased 1.3% on a reported basis and 6.9% LFL to EUR517m, matching the CS of EUR515m. Adjusted for the special premium (EUR11.4m), normalised IFO margin was down 290bp to 17% (CS: 18.4%) after a 150bp-decrease in the GM (less favourable fixed cost absorption) and higher brand support (+80bp). FY16 outlook is reiterated and BIC will host a conference call today at 4:00pm (Paris time).

### **ANALYSIS**

- Q1 sales came in at EUR517m vs. CS at EUR515m. Organic growth amounted to 6.9% and beat CS expectations (+3.8% / BG: +4.9%e) but the group experienced a more negative FX impact (-5.6%) over the quarter, mainly due to the fall of the BRL and MEX currencies (~9% and ~5% of sales respectively).
- Consumer Business was strong with +7.2% LFL (CS: +4.4%). Trends remained fairly in line with Q4 (+7.9%) on top of a tougher comparison base (Q1 15: +7.4%). Revenue in Stationery grew by 7.9% (Q4: +4.3%), driven by HSD growth in Europe and North America, LatAm was up MSD. Momentum remained robust in Shavers (+10.9% vs. 13.3% in Q4) thanks to Europe and LatAm that were up in the double-digits. Sales in Lighters only increased 5.4% (Q4: +8.9%) given demanding comparison with Q1 15 (+9.7%).
- Promotional products increased 4.6% LFL. This performance was fuelled by improving trends in Europe and in North America. As a reminder, in February BIC announced it had initiated a strategic review for BIC Graphic given a more limited outlook regarding the promotional product industry. This should be completed by the end of 2016.
- Q1 normalised IFO margin excl. the special premium paid to employees contracted 290bp to 17% (CS: 18.4%). AS in Q1 12, BIC paid an EUR11.4m special bonus to employees who had not been granted performance share plans. This one-off charge had a 150bp negative impact on the gross margin and 70bp on the normalised IFO margin. As announced at the FY15 results presentation, the group increased its brand support (+80bp). Group net income decreased by 34% to EUR51m.

### BIC Q1 16 Results:

EURm	Q1 15	Q1 16	% change
Net sales	510.8	517.3	1
Normalised IFO excl. special bonus	101.8	87.7	-14
in % of sales	19.9	17.0	-290bp
Reported IFO	97.6	76.4	-25
in % of sales	19.1	14.8	-430bp
Group Net Income	77.2	51.0	-34
Source: Company Data			

FY16 guidance confirmed. The groups expects mid single-digit organic sales growth (BG: +5%e) and maintains its cautious NIFO guidance (i.e. -100 to -150bp vs. 19.3% in 2015 / BG: -100bp to 18.3%) given a ramp up in R&D investments and a step up in brand support to protect or strengthen BIC's market share (particularly in Stationery and Shavers), to support new launches and the group's development in emerging markets (Latin America, Africa).

### VALUATION

- The significant decrease in profitability over Q1 justifies the cautious FY16 outlook provided by BIC but incremental marketing expenses seem to already fuel the top line growth, as highlighted by the better-than-expected LFL performance (+6.9% vs. CS of 3.8%).
- Yet, the stock trades at 14.4x 2016e EV/EBIT, implying a significant premium (+41% vs. 2004-16 average!). Hence we confirm our Neutral recommendation and FV of EUR119.

### **NEXT CATALYSTS**

• Conference call today at 4:00pm (CET) // AGM on 18th May 2016.

### Bryan Garnier stock rating system

For the purposes of this Report, the Bryan Garnier stock rating system is defined as follows:

### Stock rating

BUY

Positive opinion for a stock where we expect a favourable performance in absolute terms over a period of 6 months from the publication of a recommendation. This opinion is based not only on the FV (the potential upside based on valuation), but also takes into account a number of elements that could include a SWOT analysis, momentum, technical aspects or the sector backdrop. Every subsequent published update on the stock will feature an introduction outlining the key reasons behind the opinion.

NEUTRAL

Opinion recommending not to trade in a stock short-term, neither as a BUYER or a SELLER, due to a specific set of factors. This view is intended to be temporary. It may reflect different situations, but in particular those where a fair value shows no significant potential or where an upcoming binary event constitutes a high-risk that is difficult to quantify. Every subsequent published update on the stock will feature an introduction outlining the key reasons behind the opinion.

SELL

Negative opinion for a stock where we expect an unfavourable performance in absolute terms over a period of 6 months from the publication of a recommendation. This opinion is based not only on the FV (the potential downside based on valuation), but also takes into account a number of elements that could include a SWOT analysis, momentum, technical aspects or the sector backdrop. Every subsequent published update on the stock will feature an introduction outlining the key reasons behind the opinion.
