Feedback Q1 conference call: welcome news and positive momentum

Fair Value EUR48 (+23%)

BUY-Top Picks

Although reported figures were lower with total revenue down 5.2% to EUR1.161bn (consensus at EUR1.195bn) IfI growth improved to 1.9% (RevPAR was up 0.4%) vs. the forecast for a slightly positive increase and compared with 0.4% in Q4 2015. Even HotelInvest was up 0.2% on a IfI basis despite significant exposure to France while HotelServices was up 5.6% IfI benefiting from further strong expansion. The Q1 opening was strong with nearly 9,000 new rooms. The recovery is expected to continue over Q2 especially in France with Euro 2016 starting early June. Positive.

ANALYSIS

AC FP

- Negative impact from asset management programme and currencies on reported sales but strong lfl growth: Total revenue reached EUR1.161bn, down 5.2% after -5.4% from disposals with 28 hotels restructured in Q1 o/w 12 lbis from China Lodging deal, -3.2% from currencies largely due to BRL and a positive impact of 1.5% from expansion (8,961 new rooms). On a lfl basis, revenue was up 1.9% o/w a strong 5.6% for HotelServices and a positive number for HotelInvest up 0.2% despite exposure to France and Paris/Ile de France.
- HotelInvest largely impacted by Paris attacks...: Despite exposure to France (33% of HotelInvest rooms offer) especially in Paris/Ile de France with IfI revenue down 3.2%, IfI growth was slightly positive 0.2% largely sustained by MMEA up 6.1% (11% of HotelInvest offer) and especially Spain up 12.5% Note that Americas, was also slightly up 0.7% despite Brazil down 6% with positive figure in Mexico and Carabean.
- ...while HotelService was really strong: Less exposed to Paris/Ile de France, revenue in France (26% of HotelServices offer) was up 0.6% on Ifl basis benefiting from better trend in provinces. All other geographies reported strong performances (NCEE was up 8.3%, MMEA +5.2% especially due to Spain and Portugal, Asia-Pacific +8.2% and Americas +10.8% despite Brazil).
- RevPAR growth affected by France: RevPAR was up 0.4% (OR Up 0.1%pt, ADR up 0.2%) after -0.6% in Q4 2015. As anticipated, RevPAR in <u>France</u> was down 2.5% (-6% in Q4 2015) o/w -11% in Paris while RevPAR in Provinces was up 5%. Note that **Germany** (group second biggest market) was also slightly down 0.7% due to unfavourable trade-fair and holiday calendar in Q1.
- Positive outlook: Trends look encouraging in <u>France</u> even if slower than anticipated with a positive calendar effect in May (fewer bank holidays) and the start of the Euro 2016 football tournament in early June. <u>Germany</u> should also benefit from a better calendar effect. <u>Management confirmed positive RevPAR growth</u> in a number of regions especially in the UK, southern Europe, central Europe, the Middle East and most of all in the Asia-Pacific. **Strong pipeline** representing more than 158,000 rooms (over 30% of current number of rooms) and 2016 should be another sustained year after strong Q1 with nearly 9,000 new rooms (our FY forecast is based on 30,000 new rooms).

VALUATION

10.5x

14.8x

- At the current share price, the stock is trading on 2016e and 2017e EV/EBITDA of 9.0x and 7.5x, which compares with average European peer valuation of respectively 9.5x and 8.6x
- Regarding shareholders, management announced that Jin Jiang International owns 14.98% of the share equity and 13.07% of the voting rights.

Bryan Garnier stock rating system

For the purposes of this Report, the Bryan Garnier stock rating system is defined as follows:

Stock rating

BUY

Positive opinion for a stock where we expect a favourable performance in absolute terms over a period of 6 months from the publication of a recommendation. This opinion is based not only on the FV (the potential upside based on valuation), but also takes into account a number of elements that could include a SWOT analysis, momentum, technical aspects or the sector backdrop. Every subsequent published update on the stock will feature an introduction outlining the key reasons behind the opinion.

NEUTRAL

Opinion recommending not to trade in a stock short-term, neither as a BUYER or a SELLER, due to a specific set of factors. This view is intended to be temporary. It may reflect different situations, but in particular those where a fair value shows no significant potential or where an upcoming binary event constitutes a high-risk that is difficult to quantify. Every subsequent published update on the stock will feature an introduction outlining the key reasons behind the opinion.

SELL

Negative opinion for a stock where we expect an unfavourable performance in absolute terms over a period of 6 months from the publication of a recommendation. This opinion is based not only on the FV (the potential downside based on valuation), but also takes into account a number of elements that could include a SWOT analysis, momentum, technical aspects or the sector backdrop. Every subsequent published update on the stock will feature an introduction outlining the key reasons behind the opinion.
