ANALYSIS

- Eiffage has reported Q1 revenues down 1.9% (all changes in lfl) to EUR2.993bn, penalised by France (-3.8%), while International sales rose 6.9%, representing 19% of total sales in Q1.
- Construction sales were solid at EUR812m (+3.2%), despite a lower property development contribution (-EUR5m at EUR125m). Infrastructure sales fell 4.5% to EUR813, penalised by a lower contribution from BPL projects. This is a decent performance, considering the tough environment in France (Vinci Eurovia sales -8% in Q1). Finally, the Energie division was affected by a difficult comp. basis (-12% impact from the Cestas solar plant contribution last year) and sales dropped 9.6% to EUR778m. In all, contracting sales fell 3.8% to EUR2.403bn, while Vinci Contracting (excl. property dev.) was down 5.4% despite larger international exposure (40% in Q1). Concessions sales rose 6.5% to EUR590m, mostly driven by the APRR contribution (already disclosed).
- The order book improved to EUR11.8bn (+0.3%, +4.2% excl. BPL on a 12-month basis) and represents 12.4 months of business. This is slightly better than Vinci's order book (flat, up 2.2% excl. SEA on a 12-month basis, equivalent to 11 months of business). Order intake was not disclosed but is positively oriented. The outlook is unchanged with a slight decline in revenues expected in 2016.
- All in all a decent publication for Eiffage, slightly better than Vinci, despite stronger exposure to France. The share price is likely to react positively today.

VALUATION

- EUR73 derived from an SOTP.

Bryan Garnier stock rating system

For the purposes of this Report, the Bryan Garnier stock rating system is defined as follows:

Stock rating

BUY	Positive opinion for a stock where we expect a favourable performance in absolute terms over a period of 6 months from the publication of a recommendation. This opinion is based not only on the FV (the potential upside based on valuation), but also takes into account a number of elements that could include a SWOT analysis, momentum, technical aspects or the sector backdrop. Every subsequent published update on the stock will feature an introduction outlining the key reasons behind the opinion.
NEUTRAL	Opinion recommending not to trade in a stock short-term, neither as a BUYER or a SELLER, due to a specific set of factors. This view is intended to be temporary. It may reflect different situations, but in particular those where a fair value shows no significant potential or where an upcoming binary event constitutes a high-risk that is difficult to quantify. Every subsequent published update on the stock will feature an introduction outlining the key reasons behind the opinion.
SELL	Negative opinion for a stock where we expect an unfavourable performance in absolute terms over a period of 6 months from the publication of a recommendation. This opinion is based not only on the FV (the potential downside based on valuation), but also takes into account a number of elements that could include a SWOT analysis, momentum, technical aspects or the sector backdrop. Every subsequent published update on the stock will feature an introduction outlining the key reasons behind the opinion.
