#### ANALYSIS

- Today, Soitec has announced that the group is launching a second capital increase for a total of EUR75m with a subscription price of EUR0.32 per new share or a discount of 53% to yesterday's close at EUR0.68 (theoretical value of a preferential subscription right is EU0.14). Subscriptions are to open during the period from 16th to 30th May. Given that this is a rights offer, the group announced that 43.5% (or EUR32.8m) had already been undertaken by Bpifrance, CEA Investissement and NSIG Sunrise. This capital increase will result in the creation of about 235.7m shares, compared to the current number of shares outstanding of 370.4m (68% free float). As a result, existing shareholders will receive rights to subscribe to seven new shares for 11 existing shares. Overall, this points to a global capital increase of EUR152m. Note that, at the end of FY16, net debt was EUR170m including gross cash of EUR49.1m and gross debt of EUR218.9m.
- As already announced, the proceeds of the two successive IPOs will be used to expand current industrial capacity investments for the production of FD-SOI for about EUR40m, and reimburse debts made up of 1/ about EUR55m (including interests) of bridge loans issued last year, and 2/ about EUR61m of 2018 OCEANEs. Indeed, yesterday, Soitec also announced that, through the reverse book-building launched on 3rd May, the group received selling interests for 22m OCEANEs.

#### VALUATION

- Soitec's shares trade on 2017e EV/EBIT ratio of 30.0x and EV/Sales of 1.3x.

#### NEXT CATALYSTS

- 30th May: result of the capital increase.

# Bryan Garnier stock rating system

For the purposes of this Report, the Bryan Garnier stock rating system is defined as follows:

## Stock rating

- BUY** Positive opinion for a stock where we expect a favourable performance in absolute terms over a period of 6 months from the publication of a recommendation. This opinion is based not only on the FV (the potential upside based on valuation), but also takes into account a number of elements that could include a SWOT analysis, momentum, technical aspects or the sector backdrop. Every subsequent published update on the stock will feature an introduction outlining the key reasons behind the opinion.
- NEUTRAL** Opinion recommending not to trade in a stock short-term, neither as a BUYER or a SELLER, due to a specific set of factors. This view is intended to be temporary. It may reflect different situations, but in particular those where a fair value shows no significant potential or where an upcoming binary event constitutes a high-risk that is difficult to quantify. Every subsequent published update on the stock will feature an introduction outlining the key reasons behind the opinion.
- SELL** Negative opinion for a stock where we expect an unfavourable performance in absolute terms over a period of 6 months from the publication of a recommendation. This opinion is based not only on the FV (the potential downside based on valuation), but also takes into account a number of elements that could include a SWOT analysis, momentum, technical aspects or the sector backdrop. Every subsequent published update on the stock will feature an introduction outlining the key reasons behind the opinion.
