This morning Altran reported H1 2016 results above expectations, with an op. margin up 1.1ppt to 8.7% thanks to very tight cost management. Free cash flow was negatively impacted by revenue seasonality and strong lfl growth in Q2, and we expect a strong catch up in H2. The company also announced a CFO change with the appointment of Albin Jacquemont (ex-Darty, Carrefour and Lyonnaise des Eaux) in order to accelerate Altran's transformation within the 'Altran 2020 Ignition' plan. We expect the share price to react positively short-term.

ANALYSIS

- Operating margin above expectations.** For H1 2016, Altran reported sales up 10.8% (+7.9% lfl) to EUR1,057.6m, an operating margin up 27.6% to EUR92m or 8.7% of sales (vs. 7.6% in H1 2015), EBIT up 33.8% to EUR79.2m after EUR10.7m in non-recurring costs (o/w EUR5.8m restructuring costs in Germany and Benelux), and net profit up 35.8% to EUR51.6m. Operating margin was 0.2ppt above our forecast (EUR90.2m or 8.5% of sales) and 0.4ppt ahead of the consensus average (EUR88m or 8.3%), while we expected EUR5m in restructuring costs. Gross margin was up 0.1ppt to 27%, in line with stability in the invoicing (utilisation) rate as Altran accelerated its hiring activity (recruitment ahead of projects in France, Morocco...). Finally, SG&A costs as a percentage of revenues fell 1ppt to 18.3% on the back of a very tight cost management.
- Free cash flow negatively impacted by revenue growth.** Net debt on 30th June 2016 was EUR208m, up EUR70m from EUR138m on 31st December 2015 but down EUR4m from EUR212m on 30th June 2015, due to a sharp WCR increase related to accelerated revenue growth (+9.6% lfl) in Q2. In addition, free cash flow for H1 2016 reached a negative EUR37m, down from a negative EUR25m one year ago due despite a fall in DSOs to 83.3 days from 90.1 days.
- No change in the outlook statement.** In its statement, management still believes that 2016 will be another year of profitable growth for Altran. At this stage, we remain confident this year with 6.3% lfl revenue growth (consensus: est. +6%) and an op. margin of 10.1% (consensus: 9.6%). The acquisitions of Lohika and Synapse were closed on 29th August. Now the question is whether or not Altran will be able to reach our EUR157m free cash flow estimate (consensus: EUR155m) which implies an est. free cash flow of EUR194m for H2 2016 (vs. H2 2015 at EUR117m).
- Albin Jacquemont new CFO.** Altran announced the departure of Olivier Aldrin as CFO and his replacement by Albin Jacquemont, effective 8th September. Albin Jacquemont has been appointed for his vast experience in challenging environments with listed companies and help Altran to accelerate its transformation and financial performance. Before joining Altran, he was CFO of Darty (2015). Albin Jacquemont started his career at Arthur Andersen, then joined Lyonnaise des Eaux (1992-1998) as CFO of Lyonnaise Communications, then Carrefour (1998-2014) in the M&A team then successively as CFO Poland, group financial controller and CFO France. Olivier Aldrin will remain an advisor to the Altran Chairman & CEO.

Bryan Garnier stock rating system

For the purposes of this Report, the Bryan Garnier stock rating system is defined as follows:

Stock rating

BUY	Positive opinion for a stock where we expect a favourable performance in absolute terms over a period of 6 months from the publication of a recommendation. This opinion is based not only on the FV (the potential upside based on valuation), but also takes into account a number of elements that could include a SWOT analysis, momentum, technical aspects or the sector backdrop. Every subsequent published update on the stock will feature an introduction outlining the key reasons behind the opinion.
NEUTRAL	Opinion recommending not to trade in a stock short-term, neither as a BUYER or a SELLER, due to a specific set of factors. This view is intended to be temporary. It may reflect different situations, but in particular those where a fair value shows no significant potential or where an upcoming binary event constitutes a high-risk that is difficult to quantify. Every subsequent published update on the stock will feature an introduction outlining the key reasons behind the opinion.
SELL	Negative opinion for a stock where we expect an unfavourable performance in absolute terms over a period of 6 months from the publication of a recommendation. This opinion is based not only on the FV (the potential downside based on valuation), but also takes into account a number of elements that could include a SWOT analysis, momentum, technical aspects or the sector backdrop. Every subsequent published update on the stock will feature an introduction outlining the key reasons behind the opinion.
