Feedback from investor roadshow in Paris

Fair Value EUR115 vs. EUR114 (+17%)

BUY

We reiterate our Buy rating and raise our DCF-derived fair value to EUR115 from EUR114 on updated fx assumptions. Earlier this week we held an investor roadshow in Paris with VP Investor Relations Gilles Arditti and CFO Elie Girard. The takeaways from the meetings are reassuring: 1) headwinds due to customer migration to digital offerings are likely to be more than offset by additional services and volumes; 2) Atos is unlikely to sell Unify S&P at any price; 3) acquisitions will remain the same story.

ANALYSIS

- Reassuring on how to overcome future headwinds. 1) In Cloud, Canopy, which is expected to post EUR700m sales for 2016, is planned to reach EUR1.7bn in 2019 (CAGR +26%). Revenue deflation in Managed Services due to existing clients migrating to a cloud infrastructure is expected to be more than offset by additional volumes over time, orchestration and implementation services once most of the clients have moved to the cloud, pricing headwinds would tend to fade for Atos while margins with a cloud infrastructure tend to be higher; 2) on SAP HANA, Atos expects to generate EUR100m sales for 2016 (out of EUR650m SAP-related sales) and EUR700m for 2019 (CAGR +91%) while margins tend to be higher; 3) on Digital Workplace, Atos expects to boost revenues to EUR1.3bn in 2019 from EUR0.2bn (TMVA +87%) in 2016 while classic Workplace sales would shrink to EUR0.7bn from EUR1.5bn while margins would remain unchanged; 4) Atos Codex (est. EUR500m in 2016, est. EUR1bn in 2019), the Analytics and IoT platform, is mainly in Systems Integration.
- Unify S&P disposal: decision in February 2017 at the latest. Unify's Software & Platform (S&P) business accounts for 2/3 of Unify sales (EUR800m, o/w EUR600 with external customers) and is set to be sold in 2017. The decision's timing is guided by the intention not to leave staff in wait. However, the option of retaining this business is not be ruled out for several reasons: 1) Atos would like to sell it for 10x 2017e EBITDA (i.e. EUR1bn), and will turn down low-price proposals; 2) Atos intends to sell Unify S&P to a company big enough and with solid financials as the acquirer would become Atos' second largest customer after Siemens with c. EUR200m annual revenues; 3) the management would prefer selling to an industrial rather than a private equity firm.
- Acquisition priorities. Atos' top M&A priority is on Worldline, for which the consolidation of the Payments processing industry landscape in Europe is the driver. Then comes Consulting & Systems Integration in North America, where Atos has no significant presence out there and has to go beyond building up teams locally. Finally, Atos is still open on large acquisition opportunities in Managed Services like the ones it seized with Siemens SIS and Xerox ITO, with no intention to participate in competitive disposal processes nor auctions. Anyway, with an est. net cash position at end 2016 of c. EUR0.5bn and EUR3.5bn credit lines (banking covenant <2.5x 2016e EBITDA), Atos can be leveraged up to EUR4bn including acquisitions.</p>
- Other topics: 1) a potential restruction of H-1B visas in the US is unlikely to affect Atos, as less than 2% of employees in North America are H-1B visa holders; 2) restructuring is planned to shrink to 1% of sales (except if Atos makes a large acquisition) thanks to more service automation; 3) Atos has set up a 2019 free cash flow conversion target est. 65% for 2019 (EUR900m) vs. 50% for 2016 (>EUR550m) as a percentage of EBIT in order to avoid any disappointment on EBITDA.

VALUATION

- Atos' shares are trading at est. 8.7x 2016 and 6.3x 2017 EV/EBIT multiples.
- Net cash position on 30th June 2016 was EUR412.3m (net gearing: -10%).

Bryan Garnier stock rating system

For the purposes of this Report, the Bryan Garnier stock rating system is defined as follows:

Stock rating

| BUY | Positive opinion for a stock where we expect a favourable performance in absolute terms over a period of 6 months from the publication of a | | |
|-----|---|--|--|
| Der | recommendation. This opinion is based not only on the FV (the potential upside based on valuation), but also takes into account a number of | | |
| | elements that could include a SWOT analysis, momentum, technical aspects or the sector backdrop. Every subsequent published update on the stock | | |
| | will feature an introduction outlining the key reasons behind the opinion. | | |
| | | | |

- NEUTRAL Opinion recommending not to trade in a stock short-term, neither as a BUYER or a SELLER, due to a specific set of factors. This view is intended to be temporary. It may reflect different situations, but in particular those where a fair value shows no significant potential or where an upcoming binary event constitutes a high-risk that is difficult to quantify. Every subsequent published update on the stock will feature an introduction outlining the key reasons behind the opinion.
- SELL Negative opinion for a stock where we expect an unfavourable performance in absolute terms over a period of 6 months from the publication of a recommendation. This opinion is based not only on the FV (the potential downside based on valuation), but also takes into account a number of elements that could include a SWOT analysis, momentum, technical aspects or the sector backdrop. Every subsequent published update on the stock will feature an introduction outlining the key reasons behind the opinion.

Distribution of stock ratings

BUY ratings 55,6%

NEUTRAL ratings 34%

SELL ratings 10,5%
